ABOUT

A web application security enthusiast with an interest in web development currently pursuing B.Tech in Computer Science. An avid CTF player with a passion to learn new stuff.

INTERESTS

Web security(client and server side), Penetration testing and Bug hunting.

EDUCATION

Amrita Vishwa Vidyapeetham, B.Tech CSE GPA: 8.72	Amritapuri, Kerala 2018–Current
Jeevana International School, Class 12 Tamil Nadu State Board GPA: 9.06	Madurai, Tamilnadu 2018
Jeevana International School, Class 10 ICSE GPA: 8.60	Madurai, Tamilnadu 2016

LEARNING EXPERIENCE

Team bi0s Web Application Security Mentor Team bi0s is a CTF team of Amrita Vishwa Vidyapeetham currently ranking 1st in India for the last four years and among top 25 worldwide as of 2019(ranked by ctftime.org). My primary domain in Team bi0s is Websec and role is to train juniors in the field of websec and solve challenges based on the same along with other members of the web exploitation team.	Amritapuri, Kerala 2019 - current
---	--------------------------------------

SKILLS

- **Languages:** Python, PHP, Javascript, Golang, React
- **Databases:** MySQL, PostgreSQL, SQLite, Mongo
- **Server Side Runtime Environments:** GraphQL, NodeJS
- **Platforms:** Windows, Linux
- **Developer Tools:** Git, Docker, Kubernetes, Google Cloud Platform, Amazon Web Services, VSCode
- **Security Tools:** Burp Suite, Wireshark

PROJECTS

Pandora CTF Framework

2020-Ongoing

Golang | GraphQL | Mongo | React

Lead developer of Pandora Capture-The-Flag Framework, which focuses on easy management, scalability and deployment for any CTF. Was successfully used for India's largest cybersecurity competition for school students, InCTFj.

Web-Exploitation Challenges

2020-Ongoing

Authored several challenges on Web-exploitation for CTF competitions organized by TeamBi0s and for Traboda, a Cybersecurity Edutech from team bi0s and amFOSS.

File Uploader using Microservices

2020

Golang | Python | Kubernetes

Developed as a part of cloud computing course. This platform had microservices that performed different tasks like registration, login, mailer, file uploader and downloader, and a gateway that connected these components and served html. The application was dockerized and deployed into Kubernetes successfully on Google Cloud Platform.

TCP Dumper

2020

Python Flask | Networking

This tool can be used in AD ctfs for easily setting up packet captures.

Taxi-Sharity

2019

Java

This desktop app, built using Java, can be used to connect people, taxi-drivers to efficiently carpool and save resources.

VULNERABILITY DISCLOSURES

Gitlab

March 2021

Undisclosed

Rewarded for submitting a P3 rated bug.

Webmin

January 2021

XSS

Submitted a bug which exploits Reflected XSS in the admin panel.

Indeed.com

December 2020

Undisclosed

Submitted three P4 rated bugs.

Twitter.com

November 2020

Undisclosed

Submitted a bug classified as informational.

TECHNICAL ACHIEVEMENTS

- DarkCTF**, First place September 2020
Team bi0s
Solved all the web challenges in this CTF hosted by Team Darkarmy.
- Byte Bandits CTF**, Runner-up April 2020
Team bi0s
Solved challenges based on SQLi and XSS. CTF was hosted by IIT Indore's academic CTF team.
- IJCTF 2020**, First Place April 2020
Team bi0s
Solved all the web challenges in this CTF. CTF was hosted by the team warlock_rootx.

EVENTS

- InCTFj 5.0** December 2020
Management team
InCTFj 5.0, had 1500 registrations and for the first time, was held online and I was responsible for maintaining the platform, that we used to conduct the competition for high school students.
- InCTF 20** July 2020
Management Team | Challenge Author
Authored a Challenge 'XQLi' based on xss, sqli and docker-ssrf in which the participant had to exploit this application to get the flag. The challenge had 3 solves by the time CTF concluded.

COMMUNITY PROJECTS

- Seminar for high school students** 2019

Held a seminar for high school students on the use and misuse of technology and how to keep ourselves safe from people who misuse technology.
- Webinar on Web Exploitation** 2021

Conducted a seminar on the topic Web Exploitation as a part of Student Social Responsibility project.

LANGUAGES

- **English:** Advanced
- **Tamil:** Fluent/Native
- **Malayalam:** Intermediate
- **Hindi:** Beginner
- **Japanese:** Beginner
- **French:** Beginner
